Indications **Matter**

Does your current advanced wound care therapy offer head-to-toe indications? If not, it's time to turn to TheraSkin®

TheraSkin is an all human split thickness skin allograft with living cells, growth factors, and a native extracellular matrix. TheraSkin vascularizes to build granulation tissue and accelerates epithelialization to close wounds.

With head-to-toe indications¹, TheraSkin is suitable for a variety of chronic and hard-to-heal wounds including:

DFUs and VLUs

Superficial surgical wounds

Dehisced wounds

Wounds with exposed bone or tendon

Call 1-855-597-1401 to learn about custom solutions for your practice.
